Feven Temesgen

Junior Software Developer

feventemesgen91@gmail.com 0991884388 Addis Abeba, Ethiopia

github.com/FevenTe Portfolio

Profile

Computer Science graduate with project experience in React, Angular, Next.js, Python, and SQL, and recent training in Intelligent Data & AI Engineering covering data preprocessing and supervised machine learning. Worked on the frontend of MentorMeet, a team senior project, and completed a cybersecurity internship at INSA. Seeking a junior level role in software development, web development, or data/AI.

Education

Bachelor of Science in Computer Science, *St. Mary's University* 04/2022 – 02/2026

Addis Abeba, Ethiopia

Technical Skills

- **Programming:** Python, JavaScript, HTML, CSS
- **Web Development:** React, Angular, Next.js, Tailwind CSS (project experience)
- **Data & AI:** Data cleaning and preprocessing, exploratory data analysis, supervised machine learning (regression, classification), feature selection, model evaluation
- **Databases:** SQL, MySQL, SQL Server
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Anaconda, DBeaver
- **Foundations:** Object-Oriented Programming (OOP)

AI Engineering Training

Intelligent Data & AI Engineering Track 05/2026 – 09/2026

(*Education and Skills for Employability (EASE) Project – Skills for Jobs)*

- Completed practical training in Python-based data analysis, SQL databases, and supervised machine learning, designed to prepare participants for technology and AI roles
- Worked with MySQL databases using DBeaver; used Jupyter Notebook, Google Colab, and Anaconda

Projects

Personal Portfolio Website
React, Vite, JavaScript, CSS, Git/GitHub, Vercel

- Developed and deployed a responsive personal portfolio website to showcase projects, technical skills, education, and experience.
- Built the website using React and Vite with responsive design and dark/light mode functionality.
- Deployed the application using Vercel and connected it to GitHub for continuous updates.

MentorMeet – Tutoring and Mentorship Platform (Senior Project, Team)
React, Vite, JavaScript, Tailwind CSS, Git/GitHub, ASP.NET, SQL Server

- **Worked primarily on responsive React frontend** for a web platform connecting students, parents, and verified tutors.
- **Integrated RESTful API endpoints** connected the frontend to ASP.NET API endpoints for authentication, tutor profiles, and booking and availability scheduling.
- **Collaborated in a Git-driven team environment**, managing feature branches, resolving merge conflicts, and ensuring smooth frontend-to-backend data flows.

Data Analysis and Machine Learning Work (AI Engineering Training Project)
Python, SQL, MySQL, Pandas, NumPy, Scikit-Learn, Jupyter Notebook, Google Colab

- Cleaned and prepared real datasets by handling missing values, finding and fixing duplicate records, dealing with outliers, and setting up label encoding for categorical data.
- Worked through the full data analysis process to understand datasets before training models, using datasets for weather forecasting, COVID-19 statistics, housing prices, speech detection, and digit recognition.
- Used feature selection techniques and split datasets into training and testing sets to prepare the data for machine learning.
- Built, tested, and evaluated supervised machine learning models for linear regression and classification tasks to make predictions.
- Performed database exercises and data tasks using SQL queries and MySQL to manage and retrieve information.

Daily Planner
Angular, HTML, CSS, Local Storage

- Developed a task-planning web application with task creation and management, date-based planning, filtering, and drag-and-drop organization
- Saved task data in the browser using local storage

Internship Experience

Cyber Security Intern, Information Network Security Administration (INSA) 07/2025 – 09/2025

Addis Ababa, Ethiopia

- Gained foundational knowledge of cybersecurity concepts and real-world security practices
- Observed how security teams monitor systems and respond to potential threats
- Learned about common security risks and prevention methods
- Worked within a professional team environment, building teamwork and communication skills

Certificates

- Introduction to JavaScript (SoloLearn)
- Data Analysis Fundamentals (Udacity)
- Artificial Intelligence Fundamentals (Udacity)
